## about me

Creative developer with 2+ years of experience in design projects, concept creation, graphic design, animation, and visual conceptualization. In order to deliver exceptional user experience with the ability of programming, I Joined Information Industry front-end develop class for 4 months of training. Developed dynamic and interactive website that ensured high traffic page views. Increased user clicks , and subsequently customer order, using HTML, CSS, JavaScript, jQuery and WordPress. Equipped with the ability to escalate brand awareness by utilizing skills gained in the creative industry. Aspiring to combine broad background with strong technical skills to excel as a front-end developer.
